ABOUT ME

Hello my name is Atabek Abduakimov. I am Data Scientist and Backend Developer. My top skills are work with algorithm, solve complex problems and work with statistic problems. I also have some experience in Django and Flask in Backend side of problems and projects. I have a lot of experience with ML Engineering on Data Science of the problems, and my planes are learn AI and Computer Vision. My occupations are Data Science and Backend Developer, for this reason I can work any tools which related to my profession.

SKILLS

- **Languages:** Python, SQL
- **Backend:** Flask, Django
- **Data Science** :Data Collection and Engineering
- **Data Analysis** :Statistical Analysis, Statistics
- **Machine learning:** Deep Learning, NN
- **Other skill s:**Communication Skills and etc

Languages

Uzbek : **Native.**

Kazakh: **Native**

Russian: **B2 – Upper Intermediate**

English: **B1 - Intermediate.**

EXPERIENCE

Kaggle competitions:

- Completed some tasks like Millionaire Game
- Competitions like predicting data and music recognition using NN
- Hard ML and analyze projects
- Collaborated with team members to develop effective strategies, share insights, and optimize models

Projects

- Shopping Telegram Bot. [link](#)
- Millionaire game. [link](#)
- Credit Card Fraud detection [link](#)
- Classical Punk [link](#)
- Hard ML projects
- Attendance Website and etc...

Attendance Website

The performance of the website is just perfect

- Tech Stack: Python
- This project was attendance website for Astrum IT Academy when I saw attendance clerk who notes the presence of students on Google Docs
- That was amazing project, but we didn't recommend it for Astrum IT Academy, because they brought face recognition system.

Licenses and Certificates

Qwasar Silicon Valley:

Python for Intermediate level: [link](#)

Qwasar Silicon Valley:

Software Engineering Certificate: [link](#)

Qwasar Silicon Valley:

Data Science Certificate: [link](#)

Stepik:

Intermediate level of statistics: [link](#)
